

June 29th, 2011

RATP Dev Partner of the *jazzàVienne*  
29 juin - 13 juillet 2011

Already present in the Rhône-Alpes region through its activities of urban, intercity and touristic transport, **RATP Dev** operates today, via its subsidiary **Vienne Mobilités**, the network **L'va** in Vienne.

Listening to our passengers, we spread our expertise to develop, modernize and improve public transport services entrusted to us.

In addition to its mission of public transport operator, RATP Group has had for several years an active cultural policy especially in music, in the Paris region. Whether it is through partnerships with public festivals, or with the musicians of the Parisian Metro, it promotes access to all music.

We have more than ever the desire to support and enhance the cultural activities to promote the creativity, the proximity and the meeting wherever we operate.

So naturally we are, this year, partner of the **JAZZ À VIENNE** festival.
